QUICK-GLANCE CREDENTIALS

- 7 million+ users served across six payment & banking products (Wirex, DCM, Kuna).
- Raised \$2 M seed, \$2 M buy-out, and sealed 14 bank alliances for real-time rails—last year alone.
- Architect of one of the first live stable-coin pilots and early CBDC blueprints in Europe.
- Built a payment core that settles in <2 ms and one-upped Visa's SLA
- Orchestrated 1 000+ integrations with banks, card schemes & blockchains; shipped 50+ hot releases per day without a single regulator fail.
- Guided a 500-person cross-EU team through growth, audits, ISO 27001 & FCA licensing marathons. Independent Speaker One...Independent Speaker One...
- Worked with Meta, IBM, World Bank, IFC, Visa, Mastercard on tokenisation and AI-driven compliance.
- PayTech Awards, CX-Asia, TechRound 50, Fintech Breakthrough, ICC Banking Chair... the trophy shelf is creaking 🙏

VALUE-ADD (ZERO SPONSOR FEE)

- Pre-event webinar to warm your mailing list
- Co-written LinkedIn recap ≤ 48 hrs post-show
- 1-on-1 clinic for a startup from your showcase
- Host a follow-up livestream with fellow speakers

Some feedback from the latest events:

London Blockchain Conference, 2024, Panel Host
Edvin Mata, CEO&Co-Founder Brikken

➔ **“Really enjoyed that panel - Ross kept the room buzzing and left us with action points.”**

— [Edwin Mata](#)

TOPIC SWEET-SPOT

– just tick & tell me

- AI-First Banking - Personalisation to the Power of Payments
- Big Bang 2.0 - EU's FinTech Futures Shaped by AI & Tokens
- Future-Proofing Finance - The 5-Year Tech Outlook (No Hype, Pure Roadmaps)
- Programmable Economies - AI Agents That Write & Spend Money in Real Time
- Tokenised Remittances - Africa-EU Corridors Without the 8 % Fee
- Autonomous Finance Networks - How to Capture Trillion-Dollar Capital Flows
- Smart-Data Super-Conductors - Converting Data Velocity into Revenue Velocity

AUDIENCE TAKEAWAYS

1. 90-Day launch canvas to ship a regulated payment product - complete with licence matrix & KPI cheat-sheet.
2. Cost-out math: AI-driven workflows that increase efficiency by 40 %.
3. Fresh case studies (no generic AI sludge) on tokenised funds, offline digital wallets, and cross-border rails.
4. Investor signals that matter as the \$16 T tokenisation wave swells.
5. Live case studies on CBDC pilots, stable-coin rails and AI-powered KYC in MENA.
6. War-room stories that prove regulation and speed can coexist.

FORMATS & FLEXIBILITY

Keynote • Fireside Host • Panel Moderator • Workshop
Coach - ready to jump in with as little as 12-hour notice.

SHORT BIO

Ross Kolodyazhnyi builds payment engines that keep regulators calm and CFOs grinning. He scaled Wirex into a global neobank, pioneered Europe's first regulated stable-coin rails, created next wave payment rails at Kuna, and now co-creates next-gen FinTech under Launch United. Behind the headlines: 1,000+ bank & blockchain integrations, funding rounds closed in three time zones, and a payment core that clears in milliseconds. Expect blunt war stories, data-driven frameworks, and a laugh or two about debugging AI agents at 3 a.m.
